Language

Romania

English

Experience

Web Developer

E-ProDesign

Sept 2024 - Present

Developed and managed WordPress websites using PHP, HTML, CSS, and JavaScript. Optimized MySQL databases and implemented SEO strategies for dynamic web applications. Worked closely with clients to deliver functional and tailored websites.

Warrant Officer in Maritime Navigation

Ministry of National Defence - MAPN

2021 - 2024

Oversaw electronic navigation systems and coordinated team activities.

Guided the team by managing task assignments, tracking progress, and ensuring that organizational objectives were met.

Handled logistics and administrative responsibilities using the Microsoft Office Suite (Excel, PowerPoint, Power BI) for data analysis, reporting, and operational planning.

Made strategic choices and played a role in the professional growth of team members.

Fish & Wine Restaurant

Cook

2016 - 2021

Developed strong teamwork and time management skills in a fast-paced kitchen environment, collaborating closely with a dynamic team to meet tight deadlines and ensure smooth operations. Adapted quickly to changing situations, prioritizing tasks effectively while maintaining high standards of quality and service.

PROJECTS

Cipsim, Mline, Vows-Events, Urban Warrior K1

Built and managed WordPress client sites using PHP, HTML, CSS, JavaScript, and WooCommerce. Customized with Redux and optimized MySQL databases.

E-commerce Site: NexShop-Clothes

Developed using React, Redux, and TypeScript, ensuring 95% mobile responsiveness. Implemented Redux Saga for efficient state management and seamless data flow.

RoboFriends

A ReactJS app with dynamic bot search and responsive design using React, React DOM, and JavaScript.

Javascript 20 Projects

This repository contains my contributions to the course "JavaScript Web Projects: 20 Projects!", where I developed 20 projects to strengthen my JavaScript skills.

Certificates - Zero To Mastery Academy

- Complete Web Developer in 2024
- JavaScript: The Advanced Concepts
- Complete React Developer in 2024 (Redux, Hooks, GraphQL - Zero to Mastery)
- JavaScript Web Projects: 20 Projects
- Ongoing Learning: The Odin Project - Fullstack JavaScript Curriculum
